

## THE WISDOM IN SAVING.

A man who saves a dollar is a benefactor; one who teaches another to save a dollar is a public benefactor and should be knighted by the state. A dollar put in the bank at compound interest takes root instantly, it is not parched or burned by droughts; not killed by frost or sleet. It cannot be injured by heat or by cold, by famine or pestilence, by fire or by flood. It will not be lost through a hole in the pocket, nor borrowed by some pestiferous friend or boon companion. It is beyond the reach of earthquake or lightning, accident, sneak-thief, thug or murderer. It works for you by day and by night, Sundays, legal holidays and week days are all the same to it. It will not rust nor rot, nor be eaten by worms. It will sprout and mature a crop of interest for you every year throughout all eternity and then be as fresh and as ready to go on working for you and your descendants, as the day it was first carried to the bank. It will be a slave that neither eats, drinks nor sleeps, nor dies, and needs no overseer.

The investment of money in a savings account at the bank at compound interest is the best investment, the most profitable business and the greatest and grandest speculation that I know anything about.

## New Perfection OIL COOK STOVE

burns kerosene, the clean, cheap fuel. It is a fine stove for hot weather because it doesn't over-heat the kitchen. All the heat is applied at the cooking point. You can bake, broil and roast on it just as well as on a wood or coal stove—and much quicker and cheaper. It doesn't smoke or smell; doesn't taint the food. Get an oil stove and make summer cooking easy and comfortable. Dealers Everywhere.
